15. Four of the following five are alike in a certain way and so form a group. Which is the one that does not belong to that group ? (A) B D F (B) V X Z (C) F I K (D) M O Q (E) L N P Directions—(Q. 16-22) In each question below are three statements followed by two conclusions numbered I and II. You have to take the three given statements to be true even if they seem to be at variance from commonly known facts and then decide which of the given conclusions logically follows from the three statements disregarding commonly known facts. Give answers :

Page |4 (A) If only conclusion I follows. (B) If only conclusion II follows. (C) If either conclusion I or II follows. (D) If neither conclusion I nor II follows. (E) If both conclusions I and II follow. 16. Statements : Some desks are tents. Some tents are rivers. All rivers are ponds. Conclusions : I. Some ponds are tents. II. Some ponds are desks. 17. Statements : All chair are pens. Some pens are knives. All knives are rats. Conclusions : I. Some rats are chairs. II. Some rats are pens. 18. Statements : Some forests are huts. Some huts are walls. Some walls are nets. Conclusions : I. Some nets are forests. II. Some nets are huts. 19. Statements : All tables are windows. All windows are rooms. All rooms are buses. Conclusions : I. Some buses are tables. II. Some rooms are tables. 20. Statements : Some trees are boxes. All boxes are bricks. All bricks are dogs. Conclusions : I. Some dogs are trees. II. Some bricks are trees.

How many such vowels are there in the above arrangement each of which is either immediately preceded by a symbol or immediately followed by a symbol or both ? (A) None (B) One (C) Two (D) Three (E) Four 29. Four of the following are alike in a certain way based on their positions in the above arrangement and so form a group. Which is the one that does not belong to that group ? (A) 1 @ 4 (B) © T H (C) W P 6 (D) # 7 3 (E) 9 2 I

Directions (Q. 30–36)–In each question below is given a group of digits/symbols followed by four combinations of letters lettered (A), (B), (C) and (D). You have to find out which of the combinations correctly represents the group of digits/symbols based on the following letter coding system and mark the letter of that combination as the answer. If none of the letter combinations correctly represents the group of digits/ symbols, mark (E) i.e. 'None of these' as the answer.

Digit/Symbol : 4%39\$18@©2#56*7d Letter Code : PMITRQJFHAEUNBGL

Conditions : (i) If the first element in the group is a symbol and the last element is a digit, the codes are to be interchanged. (ii) If the first element in the group is a digit and the last element is a symbol both are to be coded as the code for the digit. (iii) If both the first and the last elements are even digits both are to be coded as 'X'.

 In the following questions, the symbols @, ©, %, \$ and d are used with the following meanings illustrated. 'P % Q' means 'P is greater than Q'. 'P d Q' means 'P is neither greater than nor smaller than Q'. 'P @ Q' means 'P is smaller than Q'. 'P © Q' means 'P is either smaller than or equal to Q'. 'P \$ Q' means 'P is either greater than or equal to Q'. In each of the following questions assuming the given statements to be true, find out which of the two conclusions I and II given below them is/are definitely true. Give answers : (A) If only conclusion I is true. (B) If only conclusion II is true. (C) If either conclusion I or conclusion II is true. (D) If neither conclusion I nor conclusion II is true. (E) If both conclusions I and II are true.

Directions—(Q. 50–55) In each of the following questions, two rows of numbers are given. The resultant number in each row is to be worked out separately based on the following rules and the questions below the rows of numbers are to be answered. The operations of numbers progress from the left to the right. Rules :
(i) If an odd number is followed by another composite odd number, they are to be added. (ii) If an even number is followed by an odd number they are to be added. (iii) If an even number is followed by a number which is the perfect square, the even number is to be subtracted from the perfect square. (iv) If an odd number is followed by a prime odd number, the first number is to be divided by the second number. (v) If an odd number is followed by an even number the second one is to be subtracted from the first number. 50. 15 8 21 p 3 27 If 'p' is the resultant of the first row, what will be the resultant of the second row ? (B) In each subsequent figure one time the three designs remain same and next time after shifting one side anticlockwise direction then it remain same position. Inside shaded part of the designs form after rotating 90° anticlockwise in the two designs and forms after rotating 90° clockwise in a simple square design with this also. 62. (D) In each subsequent figure the outside bigger design '<' forms after rotating 45° and 90° anticlockwise respectively and the inside smaller design '^' forms after rotating 90° and 180° anticlockwise respectively. 63. (E) 64. (A) In each subsequent figure the curved lines on upper side straight horizontal line increase in sequence of 2, 3, 1 respectively from left to right and from upper side to lower side and one curved line is missing from back side each time. The curved lines on lower side straight horizontal line increase in sequence of 3, 4, 2 respectively from left to right and from upper side to lower side and is also missing 1 and 2 respectively from back side. 65. (C) In each subsequent figure the designs shift half side anticlockwise first and then one side anticlockwise respectively and a new design forms one by one from back side each time then forward side respectively. 66. (E) In each subsequent figure one design forms on upper left side corner first and then this design shifts half side, one side and, one and half side clockwise respectively. These designs rotate 90° clockwise each time with this change also. 67. (B) 68. (A) In each subsequent figure the curved lines on the upper and lower side horizontal lines reverse in sequence one and three in clockwise direction from upper left respectively. 69. (B) In each subsequent figure the outside half circle forms inside after reversing and shifting one side anticlockwise and then it forms outside after reversing on the same side. So these sequences continue respectively. The second design square forms once on next side anticlockwise after reversing from outside to inside. 70. (E) 71. (A) 72. (C) In each subsequent figure increase in the number of triangles from upper left corner beome on the basis of increasing of lines three, four, five, six and seven lines respectively. 73. (B) 74. (E) In each subsequent figure the circles form on the place of two-two stars from upper left corner. These small circles form on the place of existing stars in the next two lines after forming upto lower left as 4, 5, 6, 7 and 8 respectively and then two-two stars form on the place of circles from back side. 75. (D) In each subsequent figure the 'square' forms one side clockwise first and then half side anticlockwise respectively. Similarly, the 'circle' shifts half side, one side, one and half side, two side and two and half side anticlockwise respectively in each subsequent figure also. 0 comments Labels: Bank Exam Papers, Reasoning Questions, Solved Papers

General English : Solved Paper

(Held on 6-7-2008) Directions—(Q. 41–50) Read the following passage carefully and answer the questions given below it. Certain words are printed in bold to help you to locate them while answering some of the questions. The yearly festival was close at hand. The store room was packed with silk fabrics. gold ornaments, clay bowls full of sweet curd and platefuls of sweetmeats. The orders had been placed with shops well in advance. The mother was sending out gifts to everyone. The eldest son, a government servant, lived with his wife and children in far off lands. The second son had left home at an early age. As a merchant he travelled all over the world. The other sons had split up over petty squabbles, and they now lived in homes of their own. The relatives were spread all across the world. They rarely visited. The youngest son, left in the company of a servant, was soon bored and stood at the door all day long, waiting and watching. His mother, thrilled and excited, loaded the presents on trays and plates, covered them with colourful kerchiefs, and sent them off with maids and servants. The neighbours looked on. The day came to an end. All the presents had been sent off. The child came back into the house and dejectedly said to his mother, “Maa, you gave a present to everyone, but you didn’t give me anything !” His mother laughed, “I have given all the gifts away to everyone, now see what’s left for you.” She kissed him on the forehead. The child said in a tearful voice, “Don’t I get a gift ?” “You’ll get it when you go far away.” “But when I am close to you, don’t I get something from your own hands ?” His mother reached out her arms and drew him to her. “This is all I have in my own hands. It is the most precious of all.” 41. Why did the woman's second son travel ? (A) He was restless by nature (B) He did not want to stay at home (C) He was rich and could afford to travel

Union Bank of India P.O. Exam, 2008 : English Language (Fully Solved)

Union Bank of India Probationary Officers Exam., 2008

English Language : Solved Paper

(Held on 7-9-2008) Directions—(Q. 1–15) Read the following passage carefully and answer the questions given below it. Certain words have been printed in bold to help you locate them while answering some of the questions. Over the past few decades, many Asian nations transformed from poverty into global competitors. From 2003 to 2007, Asian economies expanded at an average annual rate of 8•1%, triple that of advanced economies. Over the same period, inflation in Asia averaged only about 3•5%. But Asia could be facing turbulent economic times. In May, the average inflation rate throughout the region reached nearly 7%, led by spikes in oil and food prices. In India, inflation jumped to an 11•6% annual rate in June, according to the latest government figures, the highest in 13 years. Policymakers and central bankers are forced to raise interest rates and limit credit to get inflation under control. But these same measures suppress the investment and consumption that generates growth. The combination of slowing growth and soaring inflation makes economic policy-making tricky. Inflation stirs up the middle classes

Page | 23 because it can quickly erase years of hardwon personal gains. Inflation is cruel to the poor, because families have to spend a larger share of their meagre incomes on necessities. In the Philippines, farmers, unable to afford fuel for tractors, use water buffaloes to plough their fields. But to avoid unrest, leaders cannot blindly adopt rigid anti-inflation measures. Voters won't hesitate to remove from office any politician who doesn't deliver the goods. So they cannot overreact to the inflation threat and scale down economic growth in the process. Developing nations need to grow quickly to create jobs and increase incomes for their large populations. With prices soaring, doing nothing is not an option. Most central banks in Asia have started raising interest rates. The Reserve Bank of India increased its benchmark rate twice last month to a six year high of 8.5%. The challenge is especially difficult because currently, inflation is not of domestic origin. Prices are being driven higher by a global surge in oil and food prices, which individual governments can do little to control. Of course, inflation is not just a problem in Asia. World Bank President Robert Zoellick called rising food and oil prices a man-made 'catastrophe' that could quickly reverse the gains made in overcoming poverty over the past seven years. For now, though, there is more talk than action on the international front, so Asian governments are on their own. Even though inflation throughout the region is likely to continue to rise in coming months, no one is expecting an economic calamity. According to the Asian Development Bank Asian countries have large hard currency reserves and relatively healthy banks, and so are far better prepared to absorb external shocks than they were during the region's last recession ten years ago. Asian policymakers have learned their lessons and are more alert.

1. Which of the following can be said about Asian economies during the period from 2003-2007 ?

1. Though inflation was rising at the time politicians did not pay much attention.
2. Many of the poor countries were able to compete internationally.
3. The growth rate of Asian countries was facilitated by growth in advanced countries.

(Held on 13-7-2008) (IIInd Shift) Directions—(Q. 1–10) Read the following passage carefully and answer the questions given below it. Certain words are printed in bold to help you to locate them while answering some of the questions. There was a girl who sang beautifully at the temple every morning. The music master used to happily recall, "One day when I went into the woods to pluck flowers, I found this baby under a pipal tree." He picked her up carefully, raised her lovingly as if she was his daughter and taught her to sing before she spoke her first word. The music master grew old and didn't see too well. The girl tended to him caringly. Many people including young men travelled from far and wide to hear her sing. This made the music master's heart quake with fear. "You will choose one of them as your husband. What is to become of me ?" The girl replied, "I shall not be apart from you." But on a full moon night during the harvest festival, the master's chief disciple touched his feet reverently and said, "Master grant me your permission for your daughter has agreed to marry me." The master's tears flowed freely, "She has chosen well. Go and fetch her, let me hear you sing the first of many melodies that you will sing together." The two began to sing in harmony. But the song was interrupted by the arrival of the royal messenger. "Your daughter is very fortunate-the king has sent for her," the messenger said. At the palace the Queen summoned the girl to her and said, "I place upon you the honour of making sure my daughter is never unhappy at her husband's home." There wasn't a single tear in the girl's eyes but she thought of the master and her heart was heavy. That very night the princess began her journey to Kambhoj. The princess's royal chariot led the procession and the girl's palanquin followed close behind carrying trunks of silks, jewellery and precious stones. It was covered with a velvet sheet and had soldiers on both

Directions—(Q. 1–15) Read the following passage carefully and answer the questions given below it. Certain words/phrases are printed in bold to help you to locate them while answering some of the questions. The King of Kanchi set off to conquer Karnat. He was victorious in battle. The elephants were laden with sandalwood, ivory, gold and precious stones taken from the conquered kingdom of Karnat. They would be a part of the victory parade for his subjects. On his way back home he stopped at a temple, finished his prayers to the goddess and turned to leave. Around his neck was a garland of scarlet hibiscus and as was the custom for all, his forehead was anointed with red sandal paste. His Minister and the court jester were his only companions. At one spot, in a mango grove by the wayside, they spied some children play. The King said, "Let me go and see what they are playing." The children had lined up two rows of clay dolls and were playing warriors and battles. The King asked, "Who is fighting whom?" They said, "Karnat is at battle with Kanchi." The King asked, "Who is winning and who is the loser?" The children puffed their chests up and said, "Karnat will win and Kanchi will lose." The Minister froze in disbelief, the King was furious and the jester burst into laughter. The King was soon joined by his troops and the children were still immersed in their game. The King commanded, "Cane them hard." The children's parents came running from the nearby village and said, "They are naive, it was just a game, please grant them pardon." The King called his commander and ordered, "Teach these children and the village a lesson so that they never forget the King of Kanchi." He went back to his camp. That evening the Commander stood before the King. He bowed low in shame and said, "Your Majesty, with the exception of hyenas and vultures, all lie silent in the village." The Minister said, "His Majesty's honour has been saved." The priest said, "The goddess has blessed our King." The jester said, "Your Highness, please grant me leave to go now." The King asked, "But why?" The jester said, "I cannot kill, I cannot maim, I can only laugh at God's gift of life." Trembling in the face of the king's anger he bravely
