

# INFECTION REMOVAL

## Best and Affordable WordPress Infection Removal Services

Dealing with a hack on your website can be a frustrating as well as worrying experience. If not removed properly, malware will allow the hackers to easily get into the website, causing damage to your brand value. Well, you don't have to worry about your **WordPress website security** with our professional and proven WP malware or infection cleanup services. When you contact WORDPRESS HELP 24, our experts will take a pragmatic approach and completely clean the malicious code faster.

## Guaranteed WP Infection Removal

WORDPRESS HELP 24's proven **WordPress security** solutions and malware removal services will help you to get rid of malware or infection with a few clicks of a button. There is no need to wait for hours or days to reclaim your WordPress website. Let our experts deal with it, and you just stay relaxed.

We can help you with the most effective and powerful infection clean-ups from the WordPress core, database, themes, plugins and more to make your website free from malicious codes and brute-force firewall attacks. We are well known for offering professional yet affordable **WordPress website maintenance** services along with detailed malware scanning, anti-malware security, blacklist removal, hack clean up and more. Please feel free to get in touch with us for more information.

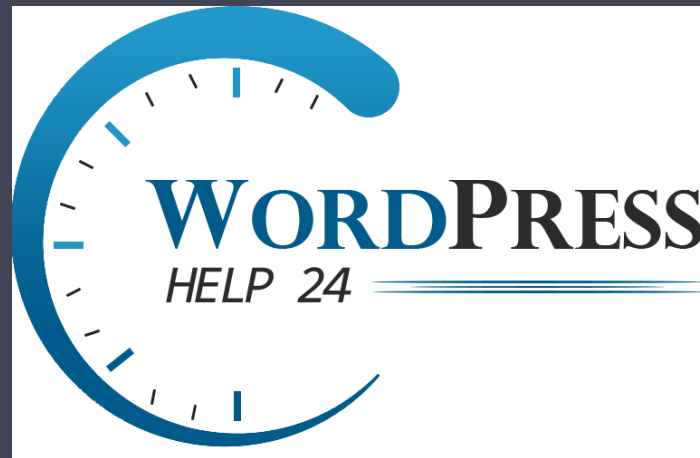

## Our Infection Removal Process

### Infection Removal Request

Once we receive your request, our expert will access your website using your login credentials for cPanel, hosting platform or SSH. If the site is offline, we will clean the viruses from hacked databases and files.

### Carrying Our Baseline Scanning

Our team will conduct a detailed baseline scanning of your WP data utilizing different scripts to know the environment. If they detect any affected areas, they will carry out the infection removal process immediately.

## Backups

Malware or virus infection can cause severe damage to your data. That's why we keep multiple secure backups before performing any changes. While removing malware from the site, we will remain in touch with you and offer you a complete report of the things that we detect on the website.

## Complete Removal of Infection

We always guarantee 100 percent complete removal of malicious codes, blocklists and files utilizing our in-house designed tools that help us to easily deal with the latest security issues and threats.

## Quality Analysis

Once we are done with the removal process, you will check the security validation to make sure your website is now free from any infection.

Contact our friendly **WordPress customer support** team with your requirements and enjoy the best **WordPress website security** solutions under your budget with WORDPRESS HELP 24.
